strikes are competing for presidential consideration.

Mr. Harding wants his appointments to the federal reserve board to please the farmers. He wants at the head of the board, also, a man closely in sympathy with his own ideas of what should be done by the government in the banking world. Those ideas are largely the inspiration of his life-long friend and banking adviser, D. R. Crissinger, Marion, O., who at present is comptroller of the currency.

#### Getting What You Want

Every home in Gazette territory is in the market at some time or other for an article of furniture or other household equipment. It should be the rule with every one to buy to advantage when possible.

Using Gazette Want ads is a splendid way to accomplish household economy. For instance, last month the following ad ran three times in the Want ad column: SECOND HAND ELECTRIC

Washer wanted. Must be in good condition. Phone 0000-

In declaring positively for the right of men to work, the president said that in both coal and railroad strikes this right had been "denied by assault and violence" and in some cases winked at by local authorities. He added:

"It is fair to say that the great mass of organized workmen do not approve, but they seem helpiess to hinder. These conditions cannot remain in free America.

"Surely these conditions must impress congress and the country," the president went on, "that no body of men, whether limited in number and responsibility for railway management, or powerful in numbers and the necessary forces in railroad operation, shall be permitted to choose a course which so imperils public welfare."

CRISSINGER MAY BE NEW GOVERNOR OF RESERVE BOARD

(Continued from Page L) made comptroller of the currency, which officer is, by law, member of the same board by reason of the office he holds, there is a chance that Senator McCumber of North Dakota, chalrman of the senate finance committee, might be given

few months sooner than otherwise would have been the case and would give Mr. Harding the benefit of Mr. Smoot's extraordinary fa-miliarity with republican issal and tariff policies in the short session of congress in December. If not in the all important closing days present special session,

may last until mid-September. Politically speaking there would be no particular significance in the appointment of Comptroller Crisfinance committee, might be given the place.

Mr. McCumber was defeated for renomination in the republican primaries in North Dakota recently and his term expires next March. The president is said to be anxious to take care of Mr. McCumber and the job of managing director of the war finance corporation pays \$10,000 a year, which is more than the senator gets.

Vacancies like this do not occur every day and if Mr. McCumber were to become managing director of the war finance corporation, to make the shift complete, he would have to resign from the senate at once.

Would Always Smeet

Washington, as he has handled the job of comptroller of the currency. Mr. Crissinger is one of those who believes international exchange can be stabilized by the right kind of International cooperation.

Incidentally, it is not apparent that Governor-Harding is looked upon with disfavor by the president. There is every reason to believe the president, in the ordinary course of events, would have nominated Governor Harding, Althoughy they have the same surpume they inated Governor Harding. Although-they have the same surname they are not kinsmen. The president probably has been influenced to choose new, men for the federal re-serve board because of the contro-versies with the farming interests which have developed under Gov-ernor Harding's rule.

#### \*Personnel Suffers

It was inevitable that the board's personnel would suffer because of the painful but necessary processes were to become managing director of the war finance corporation, to make the shift complete, he would have to resign from the senate at once.

Would Advance Smoot
This in turn would make Senator Smoot of Utah chairman of the finance committee of the senate a grown in the esteem of official with the latter policy.

whose nomination was sent to the because of the senate but defeated because of the latter's connection, with the Internation Could have been handled in better fashion is a subject on which many speeches have been made in congress. The selection of small town banker, when he first came to Washington, but he has Mr. Crissinger would be in line grown in the esteem of official with the latter policy.

# A TRUE RAT STORY

RIII rats. so I sold nim a box Stearing Haz Paste. And he put some paste on six biscuits that night and the next morning he found fitty-four big rats. And the second night he put our four more biscuits with paste on them, and the second morning he found seventeen more rats. making a total of seventy-one rats in two nights, and there were lots more that he did not flow.

This is some big rat tale, but, nevertheless, it is so. Just thought would write to let you know that your rat paste is good.

Profit Reported Since Jan. 1. Six Times Greater Than Last Year's Mark.

Despite increased taxes and the higher cost of coal, Janesville's water department reports a net income of \$3.688 for the first period six months of 1922 compared to a profit of only \$604 for the same period last year. This is due largely to metering of more services which has served to cut down waste off the old flat rate system. The last half of 1922 is expected to show a much larger income with every service now metered.

The flaures show lit cost on the

The figures show lit cost on the average of \$150 per day to run the plant from Jan. 1 to July 1, 1922.
Another important item shown it. Another important item shown it, the quarterly report just compiled under direction of Supt. H. A. Griffey is the total of plant assets, now given as \$669,127. When the city bought the plant in 1915 the assets were listed at only \$665,500 pm in 1915. were listed at only \$256.500, an in-orease in value of 230 per cent in the seven years of city ownership.

Operating Contailnercase

Although the consumption of waier for the first half of 1922 was 20 per cent below the mark of the corresponding period last year, the revenues were more than \$4,000 higher while there was an increase of a little more than \$1,000 in operating expenses this year.

Revenues in the first half of this year totaled \$41,755, compared to,\$37,-484 in 1921; operating expenses for the same periods were \$27,440 and \$25,-244. This leaves a net operating revenue of \$14,315 this year as against \$11,259 last year. From this amount, a little more than \$10,000 goes into the sinking fund and for interest leaving a net income for 1922 of \$3,688.

Apples Cheapest in Years. Apples Cheapest in Years.
Apples continue to go down to unheard-of prices. Not more than three years ago they scared to 12 and 15 cents a pound. Now they are selling, the best, for 4 cents a pound, others for 3. Crabs, although a little early in the season, bring \$1.25 a bushel, 3 cents a pound. Five cents is the highest price in town for even the very best eating apples.

It is a little too early to start canning pears, grocers say. The eating.

It is a little too early to start can-ning pears, grocers say. The eating, pears bring only 35 cents a dozen now, another low price record. Flums are in the market in quanti-ties. Merchants sell them in differ-ent manners, most of them putting them in quart boxes and selling them for around 25 cents. Small red plums, similar to the Damson, sell for 10 cents a quart, 3 for 25 cents.

Watermelons remain at the same price—around 30 and 35 cents each, a moderate price, while home-grown cantaloupes coming in have lowered the price on that fruit, now selling at 10 and 20 cents each. The home grown melons are said to be better

Bend every energy to finish the high school-ruilding so it may be used before the end of 1922. With the completion, the problem of a community center will be solved. Innexvite needs and should have ample hotel facilities to care for the public. That will be especially true when the high school is completed and the auditorium is savailable for the integest conventions.

Finish the paving of Jangarille streets as soon as there can be the necessary readjustments in taxation so as not to place a heavy burden on the people.

#### CANNOT WE GET ALONG WITHOUT STRIKES?

The coal strike now half settled and the rail strike which has the appearance of coming to a full stop, are examples of the most serious character of the hurt strikes can inflict upon a nation. It'is not that the employer and the employe are concerned. If they were the only ones strikes would not be the great economic loss which the two examples have brought. The man who grows vegetables and fruits in a valley in California with a crop to move is injured. The hired man who works on that fruit farm for wages is out of a job because the fruit cannot be marketed, and so it goes.

It is stupid to allow differences that are susceptible of peaceful adjustment to be settled by open warfare in which the whole nation is injured.

The age of machinery has developed problems more rapidly than solutions have been found. In a short time great industries grew up. The problems they brought with them were novel. People did not know how to deal with

In the beginning employers bargained with individual workers. They worked men, women and children long hours for little pay. The pace was set by the least scrupulous employer, and the others had to meet his competition by adopting his methods. As the situation became better understood the trades union movement and humanitarian legislation were invoked to meet evident evils, and an enormous improvement in conditions resulted.

One survival of the old, bad regime remained. The strike was still used in many industries. It is a clumsy, wasteful way to settle differences. It belongs with the outgrown past, with the 15-hour day and the employment of women and children in coal mines. Certain trades unlons virtually have discarded it and expect always to settle their disputes by negotiation or arbitration.

The events of the last few weeks have impressed the public as never before with the necessity of providing a substitute for the strike as a means for adjusting labor troubles. In the essential industries at least, the nation will have to get behind legislation developing the principle embodied in the railway labor hoard. /

Ranny Hearst says he will be for himself for senator from New York if properly approached. Maybe one of his newspapers will bring him out.

#### TRIE TO KILL OFF THE WEEDS /

"Cut the weeds." This is the time to do it and it should be done

thoroughly and systematically. Not a weed est. Congress will be asked for an appropriation and appeals will be made to legislatures of states, should be allowed to go to seed. Private gardens Many historians are of the opinion that when should be cleared and those places where it Washington and his forces crossed the Delaware on Christmas Day, 1776, the turning point in the seems the weeds make a regular business of thriving need attention of the city weed commissioner. Revolutionary war was reached. After forcing the British to evacuate Boston early in that year, the American leader hastened with his army to have a weed cutting day and community pride ought surely to be incentive would strike next. Congress urged him to hold the city at all becards, and against his better. enough to bring about their banishment. In the vacant lot and about the dump heaps weeds run riot. / Beside well-kept residences are vacant lots with unsightly and unwelcome weeds. Here is British commander had been awake to his opwhere the weed commissioner can get a few laurels for himself right now. This is the time of Washington's generals grew insubordinate, his the year when the weeds are making ready to men deserted by companies, thousands of people deposit seeds and reproduce their kind on an increased scale pext year. Weed cutting should the deserted by companies, thousands of people throughout the Jerseys took the cath of allegiance to George III, and overywhere there were murniful murs of disheartenment. Because 2000 nonnot be confined to the city and village sections alone. There is as much reason for eliminating far side of the Delaware, but in this crisis Wash-them in the rural districts as in town. Those lington was able not only to hold that number tothem in the rural districts as in town. Those growing along the road, along the railroad right of way, in fence corners, in abandoned or fallow fields can stand cutting and reduce the crop next mear. This is a problem essentially economic where action is far more beneficial than theory.

Mr. La Foliette does not even give Vic Berger's paper credit for being honest.

#### "THE OLD HOME BANK."

With the death of the third victim of the assault by unknown parties near Sauk City in Sauk county, comes an end to any possibility of the identity of the bandits who committed the triple crime. Only a few weeks ago three old people were beaten and robbed in Crawford county and a large sum of gold taken. It was currently understood that the Balzers of Sauk had also concealed a small fortune on the place and checked and hindered by no sense of mercy, bandlis beat two of the family to death and injured a third so badly that he has since died. Again it may be emphasized that any one who keeps sums of money about a house, and the reputation of the place is to that effect, takes a terrible chance. These people who hide money are usually of the class that does not take a nowspaper and knows little

of what is passing in the world. There are bandits abroad. The auto has made it possible to commit a crime like the Sauk county murders and be more than a hundred-miles away along comes the radio.

### Memorial For Historic Crossing

BE, FREDERIC A, HASKIN

By FREDERIC J. HASKIN, Washington—An ambitious project to com-nemorate Washington's Crossing the Delaware has been launched. Numerous ideas for marking this historic site and event have been presented, but in the past there has been no organized effort to begin the work. Now there is a concrete plan and proliminary steps have been aken toward carrying it out.

A national park with momorial roads leading to it and monuments and buildings dedicated to nutional heroes is contemplated under this plan. which was outlined at the recent State Parks Convention. Charles K. Hammitt, a representa-tive from Trenton, N. J., fathered the idea and in explaining it pointed out that not only is the site situated in a picturesque portion of the upper Delaware, but that it is also in the heart of a section rich in historical interest.

"Washington's Crossing and environment combine natural, scenery with a great national sentiment dear to the hearts of the American people," sald Mr. Hammitt. It is a suitable shrine for patriotic devotion; a natural mecca for every American wherever born. It is conveniently accessible to many millions of the population of the Middle and New England States, and fully as accessible to a vest majority of the rest of the country as the remote Western parks.

nation has long recognized the wisdom of establishing and maintaining national parks and has made enormous reservations to preserve forests and natural scenery, chiefly in the far West, so remote from the center of population that only a very small percentage of its citizens can ever hope to enjoy the benefits. Vast sums of money have been spent with the approval of the entire country, for these forests and this natural scenery constitute a great national asset well worth conserving and of growing importance with in-

creasing population.
"For more than 145 years this great historic spot, this great national asset, has remained subspot, this great hardened—not from any flack of in-terest, but from the lack of an organized driving force and a few carnest leaders to crystallize public sentiment and guide in the development. In recent years a growing demand for action has become manifest. Both Pennsylvania and New fersey have recognized it and their legislatures have made initial appropriations to acquire land and commence development, in the hope that the national government will join in the erection of a suitable memorial bridge uniting the two states' sections of the park.

"More recently the idea of a great national his-"More recently the field of a great national toric park has taken root and plans for this are under consideration. This idea has taken the shape of restoring part of the land to its original condition; for the states of Pennsylvania and New Jersey to do their part and to acquire suffcient additional land to make, first, an allotment to the other cleven original colonies to develop in their own characteristic manner under a seneral plan; and, second, similar allotments to other states which have since entered the union."
As the plan has been developed at present it is

oroposed that a monument representing Washington actually crossing the Delaware be creeted in midstream and that the memorial bridge have section devoted to each of the thirteen original Various organizations, patriotic, procalonies. fessional, commercial, religious, scientific, fra-ternal, and industrial, will be permitted to build sultable monuments suggesting their progress and their contributions to the growth of the country.

These highways would be suitably marked.
In addition to the inonuments to be erected

by the states and organizations it is suggested also that monuments, busts, or tablets be erected of men and women who have contributed notably toward the welfare of the nation. Funds will come largely from the federal treasury, from the several states and from the numerous organiza-tions of the character mentioned, but individual citizens will be offered an opportunity to make coluntary contributions. This is proposed hrough the formation of a Washington's Crossng National Park association, life memberships in which may be secured by contributing sums of and

WHAT PUFFI NG SIGNIFIES

We breathe anywhere from 14 to 20 times a minute in health. There is a normal ration of one breath for cach four heartboats. The rate and depth of breathing is determined by the body's need for oxygen and by the amount of carbon doxide (carbonic deld gas) accumulated in the tissues and blood.

The breathing of the healthy individual becomes faster after some muscular exertion, which uses up oxygen for the combustion of fuel and musclo substance and produces of combustion.

As I have often said here there is really no difference between "functional" and 'erganic' disease—all disease is functional, of course, since disease is functional, of course, since disease is nothing but disturbance of function, and all disease is organic, too, for if the organs remained normal no symptoms (evidences of disturbed function) would occur. The

needed is intelligent physical training.

QUESTIONS AND ANSWERS.

High Blood Pressure.

What are the foods that cause high blood pressure—(J. T.)

Answer—No food causes high blood pressure, so far as I can learn. Excessive blood pressure is not a disease of clinical entity of itself, but merely a feature of various disease states. Therefore no distetle prother rules can be given for high blood pressure. To attempt to treat "high blood pressure is a disease would be as unwise and futtle as to attempt to treat and futtle as to attempt to treat had been as a disease without knowing its origin.

Permit me to thank you emphatically for your occasional statements on the subject of "birth control". My own three youngsters have proved sufficiently costly is various ways for me to appreciate their worth.

(Mrs. S. Z. E.)

Answer—At any cost they're the best investment in the world, and like life insurance, they should be acquired while you are still young, for they are cheapest then.

The Violet Ray.

What do you think of a violet ray outfit for home treatment of neuritls, rhoumatism, neurasthenia and the like?—(S. D. O.)

Answer—It is a mausing toy but should not be confused with the high frequency electric machines used, often with much benefit, by physicians.

Beries and Greim.

Please tell me whether cream taken with fresh strawberries or raspberries is injurious. I have been told that it creates an acid that is hard on discussion.—(W. A.)

Answer—It is not injurious. Cream or milk must encounter the hydrochloric acid (muriatic acid) of the stomach in normal digestion, and if it can get along with muriatic acid we needn't worry over dire effects of the cemparatively mild fruit acids.

A Serial Story of the Colorado Mines

By Courtney Ryley Cooper.

SYNOPSIS

At Thornton Fairchild's death his son Robert learns there has been a dark period in his father's life which for almost 30 years has caused him suffering. The secret is hinted at in a document left by the elder Fairchild which also informs Robert he is now owner of a mining claim in Colorade and advising him to see Henry Beamish, a lawyer.

CHAPTER II.—Beamish tells Robert his claim, a silver mine, is at Ohadi, thirty-eight miles from Denver, the also warns him against a certain man, "Squint" Rodaine, his father's enemy. Robert decides to 50 to Ohadi.

On the road to Chadi from Denver Fairchild assists a girl, apparently in a fremy of haste to change a tire on her auto. When she has left, the sheriff and a posse appear, in pursuit of a bandit. Fairchild, bewildered, misleads them as to the direction the girl had taken.

CHAPTER VII

It came to Fairchild then—the sentence in his father's letter regarding someone who would hurry to his ald when he needed him, the references of Beamish, and the allusion of Mother Howard to a faithful fylend. Again, the heavy voice boomed:

"You know me now, ch!"

Do not urge him to go places after night. You might find it helpful to have a certain night when he is willing to do what you want him to do. Probably he would be willing to stay in the card club if he felt he wouldn't be toased to go to dances and shows the rest of the time. He certainly owes one or two nights a week to you and should take you away from home on such occasions. ### Secret of a Good Disposition

Secret of a Good Disposition

A woman who carefully safeguards her health benefits her disposition. She will be happy and attractive to all. The world unfortunately is filled with sweet women who are unhappy because they are held, back from usefulness by troubles sofcommon among them. Fretfulness and nervousness rapidly destroy good dispositions. Sickly, all-worn-out women cannot make happy homes.

Lydia E. Pinkham's Vegetable Compound is a safeguard of women's health. This is clearly proven by many letters we are continually plusifishing in this paper, from women who have been restored to health and happiness by its use after years of suffering. Why don't you try it?

cup of hemiock to the little wife who waits and wonders.

All that those wives are telling Mildred is being told and believed by millions of hylves in this world today. It's part of the Wise Wife Creed and it's MONSTROUS!

I think it's time we tried to clean up this cesspool in our social thought—for it's nothing more nor less than that. It is permeating every walk in life—it underlies ninetenths of the marriage contracts and is. I feel sure, responsible for ninetenths of the divorces. There is an established tradition that husbands will be faithless if given the slightest opportunity and that they must be constantly "watched." I think that tradition is a rotten lie.

I don't think any human, man or woman, who is in the least normal, will be faithless if given the slightest opportunity. But I do think that if you start in your head you'll mighty soon make the other follow faithless and that YOU DESERVE ALL THATS COMING TO YOU.

ALL THAT'S COMING TO YOU.

You can't live in the same house with a hidden ovil thought and not be affected by it any more than you could live in the same room with a dead rat and not be aware of it. That sort of sex thinking is nastler and smelller than any dead rat that ever caused a floor to be ripped up. Unfortunately you can't rip up people's skulls and get such notions out. Therefore they spread their pestilence.

pleas skin sind get don't pestilence.

It isn't decent, and it isn't true. Men and women can be and are true to each other in the face of every sort of trouble. The woman who believes otherwise is an ignorant evil minded egolist. She's ignorant because she constitutes a lot of vulgar theorizing for honest clean physiclogy and psychology and decent common sense. She's an egotist because she believes that, since she has failed, no woman in the world is capable of holding-a man.

This isn't a brief for the purity of men. It's a brief for the essential lineness and deconcy of the average human, nian or woman. I believe in their goodhess, or their desire, to be good if given a chance, and nother the state of the test that the state of the conduction of the conduc be good it given a chance, and noth-ing shall ever shake that belief. Responsibility for physical and mental equipment of children rests with parents! Start today with the question of proper, balanced nourishment!

You can't grow strong, vigorous children with the devitalized foods that are served today—foods robbed of life-giving elements! Your children should eat Kellogg's delicious whole-wheat KRUMBLES with the full, enticing flavor of whole wheat for the first time in food history! Its body-building qualities are wonderful!

KRUMBLES are not only delightfully good, but they contain every atom of the whole-wheat berry, and they make red blood and bone and tissue as no other food can-because KRUMBLES supply every food element the body needs to thrive on!

KRUMBLES renew strength of men and women for the day's work and they sustain the aged as nothing else can! All grocers sell KRUMBLES!

Words

There is an editor enshrined in the hearts of literary folks. So gracious and sympathetic are even his letters of rejection, that a "no" from him has a human charm that makes it treasured above the usual brand of "yes."

"Mere" words! Whoever originated this slur has much to answer for. There are precious words that may be put to precious uses. Kind words are the lubricant of life. There are nearly half a million words in the English language—surely a bounty from which to choose the right ones to brighten hearts and lighten burdens.

Stoughton and Whitewater City.

First Meeting in September
Word is awaited from Evansville
The Cut Off city, however, is to
have a change of principal and
coach this year, which accounts for
the delay.

The first meeting of the league
will be called by Fred Holt, Edgertou, secretary of Wisconsin Interscholastic Athletic association, and
chairman of the Rock River league,
during the first week in September.
It will probably be held in Edgerton. Crandall called upon Mr. Holt
at the Tobacco city Thursday.

At the September meeting officcrs of the association are to be
elected to form the executive committee with Mr. Holt. Chairman
Holt holds that position by virtue
of a section of the constitution
which passes the chairmanship
from school to school in alphabellcal order.

> SIZZLING weather doesn't usually bring forth visions of football, aithough it might be a coolball, although it might be a cooling thing to mention that the time is not far distant when the thud of the pigskin in practice camps will be heard. The coming senson will be more than usually interesting because of the new rule of no kick after touchdown. Right here in Janesville there are some interesting plans developing for the high school. A couple of churches are also talking formation of elevens.

HOW WOULD the public of Janesville and vicinity like some automobile racing? The local American legion post is figuring on putting on some finshes with gasolino buggles. If you are with the former soldlers, drop the sports editor of the Guzette a line and help boost the proposition. It is 11 years since anything of the kind was held here.

To Choose Officials
Officials for the football season will also be chosen at the first session. A maximum fee for refereeing games will be set.

The majority of the schools in the league want Jancsville to enter Crandall said. He urges that the officials of the local institution apply at the first meeting.

Football schedules of four of these schools have been turned into Mr. Holt. These, together with those of other schools in the loop will be coordinated so that each school will play the other in the circuit. League schedules will be so arranged that schools will have open dates on which to play schools outside of the circuit.

Two Trophies Promised It is expected that basketball scheduling will be taken up at the September session.

A traveling trophy will be given by the Janesville Gazette to that school showing the best all around athletic ability in all sports at the end of the season. Scholarship will be taken into consideration in making the award.

Milton college will also give awards in each sport. The league will have control of football, basketball, baseball, track and tennis.

## Paulists and Paddies Tied in Church League

Rechecking of the records of the church baseball league shows that the St. Patrick's and the St. Paul's teams ended the season with a tie. The sea-

ended the season with a tie. The season's standings are:

W L Pet.

St. Paul's 10 1 .000

St. Paul's 10 1 .000

Both teams have played every other team in the circuit twice. The extra game for St. Paul's was with the 'Presbyterians. The extra game for the Paddles was with St. Peter's. Both the Presbyterians and the St. Peter's withdrew from the league early in the season.

Peter's withdraw From the Teacher early in the season.
The record shows that St. Patrick's piled up 109 runs and had 37 runs scored upon them by opponents. The Paulista aggregated 128 runs against 25 counted by their enemies.

## Throw Out Heat at Monroe Races;

Monroc.—Charging that the drivers were not racing to win, the fifth heat of the 2:13 pace, fastest event of the second day's racing of the Wisconsin Grand circuit here Thursday, was thrown out by the judges. As a result six heats were actually raced.

All races Thursday were five heat affairs with stiff competition.

The event was taken by California Patch, Daly up, defeating General Buildwin, winner of the 2:14 pace at Janesville last week.

Miss Marie. Thomas mounted, grabbed off the 2:17 stake pace, feature of the day, repailing her victory at Janesville.

The fight against radiculism in Wisconsin is to be carried on in Rock rounty under the direction of a committee of six republicans, who will breanize sub-committee for the distribution of literature and committee. ribution of literature and organize a

brganize sub-committee for the description of literature and organize a speakers' bureau.

This was decided at a meeting of republicans at the the court house hero Thursday. Mrs. Arthur Harris, Janesville, was chosen chairman of the committee of six. Others asked to serve on it are Jesse Earle, Janesville: Mrs. H. Van Ovon, Belott: Harry Blakely. Evansville: Mrs. Parker, Clinton, and a man from Beloit. Several have been considered.

The plan for the committee of six was offered by a committee headed by Otto Oestreich, Janesville, which met this week.

"In our minds the biggest issue is fighting radicalism as put forward by Senutor Laffoliette and those he is supporting," said Mr. Oestreich.

supporting," said Mr. Oestreich.

To Print Sample Imilets
A concentrated effort will be made from now until the time of election in favor of the ticket endorsed by the 1,000 republicans of the state who met at Milwaukee. This ticket includs William A. Ganfield for senator: William J. Morgan, governor: Riley S. Young, Darlen, Ileutenant governor: John F. Baker, attorney general: Henry Johnson, state treasurer, and Martin Paulsen, secretary of state.

Sample ballots will be distributed and an attempt will be made to convince the voters, who have not yet made up their minds, of the merits of the platform on which the ticket is running for election. In answer to a statement that "Rock county is safe" it was pointed out that the larser vote for Gaffield and his ticket secured in Rock county for fewer would be needed in other counties to insure success.

Women Play Big Part
Mrs. Harris was chosen as chairman
due to her work two years ago. It
indicates the part women are playing
in political activities. There were
more women present at the meeting

than men.

Speakers from throughout the county will be formed into a bureau and will make speeches in every section, outlining the Issues of the election. Literature will be distributed to every republican voter in the county. Workers will be secured in every village and township to make personal calls.

George Blanchard, Edgerton, presided at the meeting, and Mrs. Abble
Helms, Janesville, was secretary. Mr.
Blanchard advised those present that Blanchard Baylsed those please that of the Rock county republican conference, due to his acceptance of the managership of the Janesville Chamber of Commerce.
